EDUCATION

WENTWORTH INSTITUTE OF TECHNOLOGY

Bachelor of Science
in Computer Science
Graduated Dec. 2020

COURSEWORK

UNDERGRADUATE

Data Structures
Algorithms
Digital Logic
Databases
Operating Systems
Network Programming
Applied Cryptography
Parallel Computing
Software Engineering
Systems Administration

SKILLS

PROGRAMMING

C/C++
Java
Javascript
Python

FRAMEWORKS

Django

TOOLS

Visual Studio Code
JetBrains IDE
GNU Debugger

PROFESSIONAL

Agile/Scrum

EXPERIENCE

CONTENT SPECIALIST INTERN | JONES AND BARTLETT LEARNING

May 2019 – Aug 2019 | Burlington, MA

- Assembled applications to automate and optimize workflows
- Maintained documentation of applications for end-user understanding
- Designed Application Programming Interfaces (APIs) to facilitate creation of an extensible application suite

RESEARCH ASSISTANT | WENTWORTH INSTITUTE OF TECHNOLOGY

Jan 2020 – Apr 2020 | Boston, MA

- Collect relevant information on real-time operating systems and integrate information into a university curriculum
- Perform practical analysis of performance and usability benefits

PROJECTS

ATTENDANCE TRACKER [GROUP] | SOFTWARE ENGINEERING

Sept 2019 – Dec 2019

- Utilized Django web framework to create cross-platform application
- Integrated templates and views to dynamically render application pages
- Adapted web templates to work with Django and specific applications

UNDERWATER REMOTE OPERATED VEHICLE (ROV) [GROUP]

IEEE WENTWORTH | SOFTWARE TEAM

Sept 2019 – Present

- Implemented firmware to control ROV motors
- Integrated microcontrollers with high-level Python libraries
- Designed interface to communicate with ROV from control computer

GAME BOY EMULATOR [GROUP] | SENIOR PROJECT

May 2020 – Present

- Leveraged existing documentation to create a software emulator for the Nintendo Game Boy CPU
- Implemented register, memory, and state management systems

FORUM [GROUP] | WEB DEVELOPMENT

May 2020 – Present

- Utilized Django framework for flexible full-stack development
- Leveraged sqlite database for efficient data storage and organization
- Integrated Bootstrap components for a modern UI

PUBLISHED WORK

REAL-TIME OPERATING SYSTEMS: COURSE DEVELOPMENT

Published in: Springer Nature - Research Book Series: Transactions on Computational Science & Computational Intelligence

- Investigated real-time operating systems and their applicability to a university operating systems course
